

BIRDWATCHING & PHOTOGRAPHY TOURS IN SOUTH AMERICA

La Campana & Olmué

The Mediterranean sclerophyll forest of La Campana, 90 minutes northwest of Santiago — the site for central Chile's endemics.

DURATION	DEPARTURE	ELEVATION	GROUP SIZE
Full Day (~9 hours)	6:30 AM from Santiago	400–1,400 m	1–4

FROM

\$240 per person

1 pax \$470 · 2 pax \$290 · 3+ pax \$240

Parque Nacional La Campana, above the town of Olmué, protects the matorral and sclerophyll woodland of central Chile between 400 and 1,400 metres — and it is the classic place to clean up the region's endemic birds in a morning of patient birding among the Chilean palms.

The target list is almost all endemic: Moustached Turca and Dusky-tailed Canastero on the brushy slopes, White-throated and Dusky Tapaculos in the gullies, Chilean Tinamou underfoot, and Chilean Mockingbird and Giant Hummingbird in the open. Striped Woodpecker, Chilean Flicker and Austral Pygmy-Owl round out a rich day.

TARGET SPECIES

Moustached Turca
Dusky Tapaculo
Dusky-tailed Canastero
Giant Hummingbird

White-throated Tapaculo
Chilean Tinamou
Chilean Mockingbird
Austral Pygmy-Owl

DAY BY DAY**6:30 AM — Pickup in Santiago**

~1.5 hours to Olmué and the park entrance; birding starts at the gate.

Morning — matorral & gullies

We work the slopes and quebradas for Turca, tapaculos, canastero and Chilean Tinamou.

Midday — return to Santiago

Last matorral species and the drive back to the city.
